EDUCATION

B.Tech. - Computer Science and Engineering (Cyber Security and Digital Forensics)

October 2022 - May 2026

VIT Bhopal University, CGPA: 8.24/10.00

SKILLS

Languages: TypeScript, JavaScript, C++, SQL

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, WebSockets

Databases: PostgreSQL, Prisma, MongoDB

DevOps: Docker, Kubernetes, Linux, CI/CD

Tools: Git, GitHub, Turborepo

PROJECTS

EXCALIDRAW CLONE

Feb 2026 – Present

Real-Time Collaborative Diagramming Platform

- Developed a **real-time collaborative platform** using a **Monorepo (Turborepo)** with **React, Tailwind CSS, Prisma, PostgreSQL**, and **TypeScript**.
- Created **3 shared packages** for frontend, WebSocket backend, and HTTP backend, enabling code reuse across services.
- Implemented **WebSocket-based live collaboration** and modular CRUD APIs for multi-room sessions.
- Integrated **authentication, authorization, and secure routing** for multiple users.
- Built a **component-driven React frontend** with reusable components for creating and editing live diagrams.

THREADLY

Jan 2026 – Mar 2026

Full-Stack Social Media Platform

- Built a **full-stack social media application** using **Next.js, TypeScript, PostgreSQL**, and **Prisma ORM**.
- Designed a **relational database schema** for core features including posts, users, comments, likes, and follows.
- Implemented **authentication and authorization** using **Clerk** with protected routes and session management.
- Developed key social features such as **posting, commenting, liking, following, and user profiles**.
- Built a responsive UI using **Tailwind CSS** and **shadcn/ui** with reusable React components.

TEACHIO

Oct 2025 – Nov 2025

Full-Stack Course Selling Platform

- Architected a **scalable MERN stack application** with a modular backend using **TypeScript**.
- Designed **7–8 normalized MongoDB schemas** with RESTful APIs and implemented **secure authentication and role-based authorization**.
- Delivered **end-to-end CRUD workflows** and **role-based dashboards** for course and platform management.
- Built a **component-driven React frontend** (20+ reusable components) with **Tailwind CSS** and **shadcn/ui**.

ACHIEVEMENTS

Solved **250+** problems in **Data Structures and Algorithms** on **LeetCode**, **GeeksforGeeks**, **CodeStudio**.

Applied CS fundamentals across real-world projects in **full-stack development**, **backend architecture**, and **frontend design**.
